VALENTINE NYAMBURA

Hi, I'm Valentine

I'm a **Graphic Designer** with a strong focus on visual clarity, brand consistency and creative problem solving. With a background in fine art and digital design, I bring both technical skill and conceptual thinking to every project I work on.

My approach is grounded in purposeful design. I believe that great visuals don't just look good, they communicate clearly and drive results. Whether working on brand identities, marketing collateral or UI elements, I strive to create work that aligns with both aesthetic and strategic goals.

Jahazi Cafe

Brand Identity

Jahazi Cafe is a conceptual cafe brand focused on coffee, pastries and tea, developed as a full identity system across physical touchpoints.

The goal was to create a simple, adaptable identity that works across common cafe materials such as cups, mugs and packaging, while maintaining clarity and consistency in both dine in and takeaway contexts.

Majikwezi

Brand Identity

Majikwezi's identity draws inspiration from the tranquil rhythm of coastal life, where water meets moonlight and time slows down.

The concept blends natural serenity with modern simplicity, using fluid shapes, soft contrasts and warm tones to mirror the beauty of African evenings by the shore.
